clinical evidence

NICE

Efficacy of medication

Four of these reviews looked at the efficacy of a particular medication. Three reviews were all of very high quality (Cure and Carpenter 2001; Fenton et al. 2001; Carpenter

Register - 10000/7000

Cochrane Schizophrenia Group

Pragmatic randomised trials

TREC-Rio-1 (n=300)

TREC-India-1 (n=200)

TREC-Rio-2 (n=316)

TREC-India-2 (n=300)

UK PROMPTS (n=764)

LEEDS - Homeless (n=60)

LEEDS - HMP Armley (n=90)

LEEDS - Multi-prison (n=340)

Unlike most of the other studies in this review, both were large studies of a high methodological quality.
