

Faculty of Science & Health

IRISH SEPARATION SCIENCE CLUSTER (ISSC)
Associate Professor in Separation Science

The Faculty of Science and Health at DCU wishes to appoint an Associate Professor in Separation Science to help lead the SFI funded Irish Separation Science Cluster (ISSC), a joint initiative between DCU and University College Cork, which comprises an internationally significant team of leading separation scientists, biotechnologists, organic/polymer chemists and micro-engineers. Further information in relation to ISSC may be obtained via: <http://www.separationscience.ie/>

We seek an individual whose accomplishments and reputation are consistent with an academic appointment at the Associate Professor level. The person appointed will have a demonstrable international reputation in his/her field of research, and will be expected to exhibit both strong academic leadership and management skills. He/she will be expected to provide leadership in research and contribute to the education mission of the Faculty (www.dcu.ie/science_and_health/index.shtml). The successful candidate will carry out teaching duties in one of the Schools in the Faculty.

This contract may be up to 10 years in duration.
