"Software patents and how they are perceived to impact on innovation is one of the hot topics of the moment. However, different jurisdictions have different standards for the allowability of software patents, and these standards continue to evolve. How could this impact on your business?

Come and join us for an informative seminar that will discuss the patentability of software-related inventions, and how these patentability standards vary across the world. The seminar will be followed by an in-depth Q&A and rounded off by a networking session. Walk away with great insights and your questions answered."
